

The Art Deco Fortune Telling Cards do not come with a little-white-book, or any other documentation. It is actually almost impossible to find -ANY- information about the Gipsy system in English. This deck is an expanded version of the Gipsy Cards, designed in Austria in the mid-1930's.

Like the Lenormand, Gipsy cards are read in relation to each other, and never read reversed. The Art Deco Fortune Telling Cards can be laid-out using any Gipsy Spread.
